

PartsPak Knife Division

**The highest
quality packaging,
processing and
converting knives.**

PartsPak knife division supplies the highest quality packaging, processing, and converting knives to industries worldwide. With decades of experience and an unwavering commitment to excellence, we are your trusted partner in precision cutting solutions.

Unmatched quality

Our knives are crafted from premium materials using state-of-the-art manufacturing techniques. Rigorous quality control processes ensure each knife meets our stringent standards for durability, sharpness, and reliability. When you choose PartsPak you choose knives that perform consistently and stand the test of time.

Expertise you can trust

With over 30 years of industry experience, our team of engineers and technicians possesses unparalleled knowledge and skill. We understand the unique challenges of your industry and offer expert guidance to select the right knives for your specific applications. Trust in our expertise to provide solutions that enhance your operations.

Customized solutions

Every business has unique needs, and we believe in providing tailored solutions to meet them. PartsPak's knife division offers customized knife designs and specifications to fit your exact requirements. From initial consultation to final product delivery, we work closely with you to ensure optimal performance and satisfaction.

On-time delivery

Efficiency and reliability are at the core of our delivery promise. With a global distribution network and a streamlined supply chain, we ensure that your knives are delivered on time, every time. Our commitment to prompt and dependable delivery helps you maintain smooth operations without interruption.

Packaging

The correct knife can make all the difference in your packaging operations. That's why we offer a comprehensive selection of high-quality packaging machine knives across many industries. From straight and circular knives to toothed and perforation knives, they are engineered for precision, durability, and performance.

Designed to meet the diverse needs of many industries.

Knife types

- Flowrapper
- Tray sealer
- Tape
- Vertical Form Fill Seal
- Horizontal Form Fill Seal
- Pouch
- Cross Cut
- EZ Open
- Scissor
- Zig Zag Knives & Anvils

Applications

Whether you're cutting through cardboard, plastic, foam, or shrink wrap, our knives offer precision, durability, and ease of use. Trust our versatile and efficient packaging knives to handle any type of packaging.

Processing

Our food processing machine knives are meticulously engineered to meet the stringent demands of the food industry. They deliver exceptional precision and durability, ensuring performance, efficiency and hygiene in cutting, slicing, and dicing.

**Optimal performance
and efficiency in cutting,
slicing, and dicing.**

Knife types
